

# THE NEWS FROM THE OLD NORTH STATE AND ITS CAPITAL.

## ONE THOUSAND WHITE CLUBS

White Supremacy to be the Rallying Cry Throughout the State.

### THE NEWS OF RALEIGH

**Electric Lights for Tarboro—Another Furniture Factory at Winston—Salem—New Telegraphic and Cable Connections Assured—The Capital Stock of Durham Mills Increased—Lexington's New Mill—All the Year Round.**

Raleigh, N. C., Feb. 22.—Chairman Simmons has completed and will send out this week to the various county chairmen the plan of organization of White Supremacy Clubs. Mr. Simmons says that these clubs will be organized throughout the State this year and by the middle of June he expects to see at least two thousand of these clubs in full blast in North Carolina. He predicts that before the election there will be such a coming together of the white people in North Carolina in support of the amendment as has not been in the State in any previous election.

**LIGHTS FOR TARBORO.**  
A special from Tarboro says: There are several representatives of houses here to put in bids to-morrow for lighting Tarboro. The bids will be opened at three o'clock to-morrow, by the Board of Commissioners. It is proposed to put in an eighty horse power engine and hundred horse power boiler. There will be about six hundred incandescent lights. The sewerage main pipes will be completed in about five days. The new cotton mills are about completed and will be in operation soon. Tarboro continues to go forward.

**PROGRESS AT WINSTON.**  
The stock has been subscribed for another big furniture factory at Winston. Five of Winston-Salem's capitalists will compose the company which will be organized in a few days. The site has not yet been definitely agreed upon.

**TRAFFIC BY WIRE.**  
The Postal Telegraph and Cable Company will in about ten days open up 240 miles of new wire for traffic in this State, bringing Raleigh and other towns on its lines into communication with some of the most important industrial centers in the State.

The Postal managers also have in contemplation a scheme that would give Raleigh and other towns long distance telephone with Washington on the north, and Augusta, Ga., on the south, including of course, all intermediate towns in which the company has offices.

**DURHAM MILLS.**  
A Durham correspondent writes: The new cotton mill to be erected in Smoky Hollow, which was originally capitalized at \$250,000, will now cost \$450,000, \$200,000 more having been added to the capital stock. The new factory will have 16,000 spindles and 800 looms. Ground is to be broken next month for the erection of the plant.

The Durham Hosiery Mill, which is owned by General Julian S. Carr, will be moved to the same locality. The capital stock of this company, which was originally \$100,000, has been increased to \$250,000. Work will begin right away, and it is expected that the new hosiery mill will be ready by the first of September.

**LEXINGTON'S NEW MILL.**  
Attorney-General Walser has just returned from Lexington where he went to assist in locating the \$100,000 cotton mill to be built there. He says that nothing but the latest improved machinery will be put in if it can be had, but the manufacturers of such machinery are a year behind with orders. It is the purpose of the stockholders to make a finer grade of fabrics than is turned out by most mills of the State. General Walser says that there is such a demand for houses in Lexington that people are renting the second stories of storehouses for dwellings. Property has advanced greatly as a result of the projected mill.

**ALL THE YEAR ROUND.**  
The trustees of the University of North Carolina have decided that in future that institution shall have continuous sessions. In other words the University will be open all the year, as, according to the plan, the summer school will be lengthened to include the months of June, July, August and a part of September.

The plan for a continuous session was strongly urged by Dr. Alderman in his annual report read to the trustees yesterday, and that body heartily concurred in the idea.

### GREAT WATER POWER.

**THE STUPENDOUS PLAN NOW BEING CONSIDERED.**

(By Telegraph to Virginian-Pilot.)  
Chicago, Ill., Feb. 22.—The immense water power of the new ship and drainage canal, estimated to be worth millions of dollars, is to be utilized and controlled by the municipal government of Chicago, if plans laid by Mayor Harrison are carried to a conclusion. Mayor Harrison said that the passage by the City Council Monday night of an ordinance authorizing the issuance of \$2,500,000 bonds for the construction of a power plant at Lockport is but a step in the movement to secure the power for municipal purposes, and that if necessary legislation will be pressed to secure the water energy for Chicago. Mayor Harrison also intimated that he would fight all attempts to lease the power to private individuals.

The power thus secured will be used for lighting the streets and all public buildings and to furnish bridge and water works power.

## PRICES WILL ADVANCE ON AND AFTER MARCH 15th, 1900.

On account of the Extensive and Expensive Improvements of the Port Norfolk Investment Company, prices of lots will be advanced on and after March 15th.

The original prices of these lots are incomparably lower than any other equally improved and located property and they are certain to advance in value very rapidly. The location with reference to the great railway terminals insures a growing population, and surrounds them with industrial activity. Good schools, churches and electric street car lines afford city advantages. We challenge comparison with any other suburban section as to class of improvements and buildings. The principal avenues are nicely graded, and being improved with substantial sidewalks. There is no doubt that business is centering in the direction of Port Norfolk, and the lots now offered at from \$150 to \$200 per lot will in the near future sell for an advance of at least 100 per cent. We desire all the readers of this advertisement to look over the lots and call for information as to prices in specific location desired. We have a few unimproved lots as low as \$100 each.

Until further notice, we will sell on easy installments of \$10 per lot cash and \$10 monthly until paid.

Clerks, teachers and all other persons receiving a stipulated salary can buy on this plan without inconvenience to themselves, and a purchaser of one or more of these lots will help lay the foundation for a home or help provide a substantial sum with which to begin business. It is said by financiers that the first \$1,000 is the hardest to acquire, and after that money making is comparatively easy. Lay the foundation for this first \$1,000 by securing one of these choice lots.

Remember, prices positively advance after March 15th, and do not delay your purchase until the time limit. Early purchasers have a larger number to select from.
